

Leading the charge for recycling.™

# Giving old batteries new life.

Under a government-approved battery stewardship plan in British Columbia, Call2Recycle® operates the consumer battery collection and recycling program throughout the province.

The program is funded by Environmental Handling Fees (EHFs), which are applied to the sale of new single-use and rechargeable household batteries.

The EHFs are used to administer the program and ensure batteries can continue to be responsibly recycled at the end of their useful life and kept out of landfills. The valuable metals and materials from the old recycled batteries are used in the manufacturing of new products, including batteries.
