

Leading the charge for recycling.™

Giving old batteries new life.

Under a government-approved battery stewardship plan in PEI, Call2Recycle® operates the consumer battery collection and recycling program throughout the province.

To continue offering a convenient battery recycling program, an Environmental Handling Fee (EHF) is applied to the sale of new household batteries and batteries sold with or in select products.

The EHF's are used to administer the program and ensure batteries can continue to be responsibly recycled at the end of their useful life and kept out of landfills. The valuable metals and materials from the old recycled batteries are used in the manufacturing of new products, including batteries.
